

The word game that ends in a frantic scramble![™]

OFFICIAL PARTY RULES

Word **FRENZY**® can be played in a party format with large groups. It's fun and non-intimidating so everyone will have a great time. No one sits out to wait for a winner.

Set Up

- All Official Word **FRENZY** rules apply.
- Determine the number of tables needed to accommodate everyone playing. 8 players maximum at a table.
- You will need one Word **FRENZY** game and **FRENZY** Prize[™] set for each table.
- Assign numbers to all tables beginning with #1. Two players will move tables each round creating a great party atmosphere where everyone plays with everyone.
- Assign starting seats in any way you choose. Scoring is the same for all tables. If possible, tables should have the same number of players.

That's it. You are ready to begin.

Play

- Place **FRENZY** Prizes in the center of each table, one less prize than the number of players (two less in the case of 8 player tables).
- Each table must then draw a Category Card and choose a category. Or, choose someone to select a category for all tables so everyone is playing the same category.
- The dealer at each table should pass 5 cards to every player. No one may look at their cards until the dealer shouts "GO!"
- Each table plays the round as instructed in the Official Word **FRENZY** Rules.
- After all tables have completed and scored their round, two players from each table, the one who got the word and the one who missed a prize, will move up to the next table in chronological order. If eight are playing at a table, only the two players missing the prize will move to a different table. Players at table #1 will move to #2, etc. Players at the last table will move to #1.

Winning

The Word **FRENZY** Party ends when one player spells **FRENZY** in their Prize Score. Players total their points. The player with the highest score of all tables wins.

Ties

If there are more than one player with the same highest score, they play elimination rounds until only one player remains. The player(s) who misses a prize will be eliminated after every elimination round. The last player not eliminated is the Word **FRENZY** Party Winner.

It's a wild and crazy time for everyone.
